HYBE Design Team

L'ETERRE(2023)
First restaurant in Japan by Chef Jun Ito who was a Michelin star in Paris in 2017.
2023 日本初となるシェフ 伊藤 淳のミシュラン星一獲得のレストラン。海外初出 版の書籍。

A close-up photograph showing the corner joint of a dark wood-grain laminate floor. The floor is composed of rectangular planks with a realistic wood texture. The joint is tight and flush, demonstrating the precision of the flooring installation.

A close-up photograph of a modern interior ceiling. A long, illuminated linear light fixture is mounted on the ceiling, casting a warm glow. Below it, a small circular recessed light is visible. The ceiling has a textured, metallic finish.

A wide-angle view of the restaurant interior, showcasing the extensive wood paneling on the walls and ceiling. The space is divided into a bar area on the right, where a chef in a white uniform is visible behind the counter, and a dining area on the left with several tables and chairs. A person in a blue uniform stands near a doorway in the background. The lighting is warm and focused, highlighting the textures of the wood and the clean lines of the furniture.

A detailed floor plan of the first floor. It features a large central hall with a staircase on the left. To the right of the hall is a large room with a curved desk and several chairs. At the bottom center is a large square room with a large 'X' on the wall. To the right of this square room is a long room with several small tables and chairs. The plan includes various rooms, corridors, and furniture like desks, chairs, and a staircase.
